### commercial

Rates dependent on # of photos &  
licensing requirements.

Your photos can be delivered in one of two flavors: full resolution files output to DVD, or hot off the presses from the world's best printshop.

This choice is all about your needs. With a DVD, you can certainly reprint your photos to your heart's content... However, these won't be of as high a quality as the prints I would provide you. Many people are fine with the DVD option, but I think it's only fair if I offer you both and let you decide on what you prefer.
